AND INFORMATION MANAGEMENT

## Active Project Access ®

### Attention:

- CAD Managers
- Project Managers
- Document Control Managers
- Other Managers
- Facility Managers
- ISO 9000 Manager

### Graphic Sciences introduces...

**Active Project Access** -an internet solution designed as a repository of all **engineering drawings** and **specifications** associated with your projects.

From Design Stages, Owner Review thru Bid, Construction, to Completion, all phases of your project drawings and specifications are identified, collected, indexed, filed, stored and maintained in electronic format, accessible 24/7.

If you have access to the internet you'll have access to your project drawings. **Active Project Access** is easy to use and provides you with real control over these important documents.

Tried other internet document management products and found them difficult to use, hard to administer, too costly, and seldom used? Then you'll love **Active Project Access** because of it's simple file folder structure that works the way **YOU** want it to work.

Want to hear more? For a demonstration or to start your next project, contact Terry Buchanan at 1.800.397.6620 or [email us with our contact form](#).

Remember if you have access to the internet then you have access to **Active Project Access**.
