

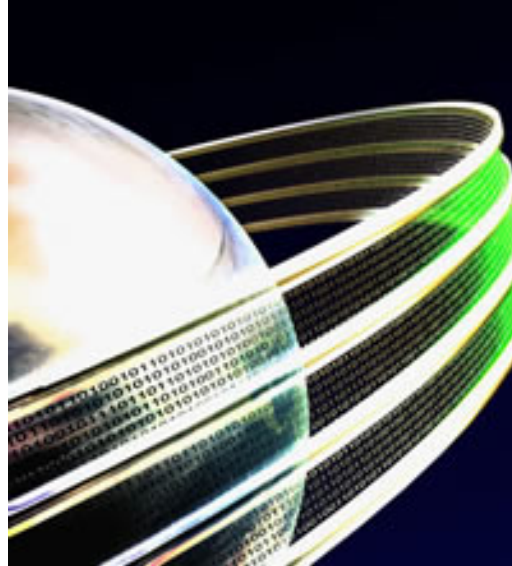

GRAPHIC SCIENCES

**YOUR PARTNER IN DOCUMENT
AND INFORMATION MANAGEMENT**

Scan It Today! Store It Forever!! Access It Anytime!!!

Graphic Sciences can now make it possible for any company to have access to all their paper and/or electronic files from anywhere via the Internet. Graphic Sciences, a Royal Oak Document Management Company has added a service called "**@ll @ccess**" as a new dimension to their already wide range of document management products and services.

Other benefits:

- Find the document you want fast.
- Eliminate miss-files
- Multiple search options
- Simultaneous access by multiple users
- Older documents can be purged automatically

The **@ll @ccess system** is not just for remote access, companies of all sizes can benefit from the elimination or reduction of file cabinets and all of the labor and real estate costs to house them. The new web access process not only provides faster access to formerly paper based information systems, copies can be printed out in the office or forwarded via e-mail thus dramatically reducing response time and labor cost.

Graphic Sciences scans documents from large backlogs to small volumes of daily work. Operating 24 hours a day, Graphic Sciences can support their clients' turnaround requirements and in fact provide customers access to their documents even while in the process of scanning. Many of our customers have said that since they have contracted with Graphic Sciences, they can retrieve documents faster than when the documents were in their own facility.

Adding to the above, ability to retrieve, view and print documents from remote locations, has a profound impact on operational efficiency. Customer reps can answer questions and provide documentation on the spot and documents can be reviewed without going to the office.
